DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, 13 and 22, drawn to methods of removing a part of a transgene comprising on each side thereof an attachment P region or a functional fragment thereof.

Group II, claim(s) 12, 14, 18-21 23 and 24, drawn to a plant, plant cell or plant tissue comprising recombinant attachment P regions, and a method of using.

Group III, claim(s) 15, drawn to an attP recombination cassette.

Group IV, claim(s) 17, drawn to a kit for removing a part of a transgene after its integration into a plant genome comprising an attP recombination cassette.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The prior art discloses a method of removing a part of a transgene after its integration into a genome comprising flanking a fragment of an attachment P region. Peredelchuck *et al*, Gene 1997, 187: 231-328 (reference is of record), disclose a method of removing a part of a transgene flanked by a $\lambda attL$ and an $\lambda attR$ sequences which comprise a fragment of an attachment P region and have an equivalent function. Hence, the claims lack the same special technical feature.

3. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1638

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
